## Last Meeting 10-20-98

Our last meeting featured our very own member Jack Vesery. Jack demonstrated his techniques on materials gluing, cutting, sanding on segmented turnings. We also found out that Jack wastes nothing (see photos) he'll just make another smaller piece. Jack donated a "pathway" tee shirt given to him at national symposium in Akron last summer, for a future raffle. Thanks Jack, for a interesting and informative demo.

We also had a great "wood auction" with lots of wood and according to our auctioneer "Allyn Beecher" the bidding was fast! Thanks to everyone that brought in wood, remember the money raised at the auctions goes towards major demonstrators. So save that special piece of wood for our next auction planned for our DEC. meeting.

**SHOW & TELL** The show and tell portion of the meeting had many fine pieces on display that various members brought in and discussed with the club. Don't forget the show and tell for next meeting on Nov. 18, 1998. This is one way we all can learn by actually looking and touching and asking questions about various wood, finishes and

techniques used by our members
