Our demonstrator for the June 18th meeting is

Don Rawnsley

Don demonstrates the threading jig he made and also plans to show us the art of hand thread chasing.

Several of Don's show and tell boxes have had threaded lids made with this jig!

This is a great opportunity to learn about thread chasing

Don't miss this one !!!

President Message

As I am writing my last blurb as president I think back to some of the fine things we have done since I joined the club in 2009. Along with the excellent invited professionals , we have had first class demonstrations from our own members, many have done one or a handful and few like Dave Lancaster and Mac Ray performed multiple demos each right from the start of the club . While losing the coziness of the shop for meetings, our new room sure allows for much more: room for Dennis Curtis and the first class camera system, have separate tables for treasurer Burt Truman, librarians Duane and Connie Butler show and tell photographer Don Caron, one for you to sell your turning related items and Oh yes , coffee and donuts. We should all note how fortunate we are to have this relationship with Erskine Academy and our own Dave Barden. Without a similar arrangement holding meetings would be difficult at best. Fun has also been had at Road trips out to Bill Housley's rose engine, Lou Landry's shop, Dave Lancaster's operation , Rare Woods and others . Great chances to learn much more than just seeing a demo.

I thank all those that have stepped in or found a way to help the club either in a big or small way, and encourage those others to do so. I am hoping soon that someone will step forward to assume vice-president.

Best of Luck to Brian Libby as our next president, please give him your support.
