

Newsletter

January 2015

This is a regular meeting but will be on **Saturday**, the 24th

Bob Delio

Bob will demonstrate the process of designing, turning, piercing and sanding hollow-turned vessels. He will show the techniques used to layout the designs, how to achieve consistent wall thickness, carving and piercing tools I use and creating your own sanding tools to finish the piece. He will also use vessels under construction to demonstrate the various stages of development.

Some of Bob's work

*Bob creates great pieces! No matter what your skill level,
there will be something for everyone.*

Show & Tell photos at 9AM Demo starts at 9:30AM ends about 11:30

There is an urgent need for adaptors, George is down a handful.

They just passed 2400 canes!

Eagle Cane Adaptors
